Account Summary

Reporting period

07-Jun-2018 to 30-May-2024

Account value 06-Jun-2018	Total P/L	Net deposits & transfers	Account value 30-May-2024
0.00 SGD	**65,982.46 SGD**	**-65,979.49 SGD**	**2.97 SGD**

Change in Account Value

2.97 SGD

Total return

154.85%

Account value development, SGD

Reporting period

07-Jun-2018 to 30-May-2024

Cash

Cash is the sum of your cash balance, transactions not booked and corporate action accruals. Transactions not booked and accruals are amounts that are incurred but not yet paid from your account, these are included to give an accurate picture of your spending power. In the table the value of cash is shown for specific dates in the stated period.

Position Value

Position value is the sum of all your open positions, P/L of margin positions. As opposed to live updating positions the value does not include the cost to close. In the table the total position value is shown for specific dates in the stated period.

Account value

Account value is the sum of cash and position value. In the table, the account value is shown for specific dates in the selected period. The chart shows the development of account value in the selected period.

Total P/L development, SGD

Reporting period

07-Jun-2018 to 30-May-2024

% Return

The return displayed is the cumulative daily time weighted percentage return for the account(s) for the stated period. The percentage return for each day is calculated as the total earnings of the day divided by the previous days account value adjusted for deposits, withdrawals and transfers. The percentage return allows for comparisons of returns between accounts and periods even when the account value differs.

Total P/L

Total P/L is calculated as the following: Account value at the end of the selected period–value of deposits, withdrawals and security transfers– account value at the start of the selected period. The Total P/L include P/L from instruments held in the period as well as non-instrument related transactions and valuation changes to cash balances on foreign currency accounts.Total P/L do not include gains/losses made outside the selected period.Total P/L excluding costs depict what the P/L of the account would have been if no costs had been incurred in the selected period.For positions opened prior to the selected period only price gains/losses incurred in the period will be included in the Total P/L.

*Partial period

P/L breakdown, SGD

Reporting period

07-Jun-2018 to 30-May-2024

Income

The sum of all dividends, coupons and other income received in the stated period for the instrument.

Costs

The sum of all costs in the stated period for the instrument. Costs include both transaction costs and ongoing costs. Costs not attributable to a specific instrument are not included in this overview. Indirect costs that do not directly affect your cash balance are also included in this figure. For further details please see the Cost Summary section.

P/L

P/L is calculated as the following: Value of held positions at the end of the selected period + all cash booking in the period(dividends, traded values, commissions etc) – value of held positions at the start of the selected period. The P/L can therefore be interpreted as how much the instrument contributed to the growth or decline in the account value for the selected period.P/L do not include realized or unrealized gains/losses made outside the selected period.

Return

The time weighted percentage return for the instrument in the stated period. The percentage return reflects the total percentage gain/loss in the stated period for the instrument and includes price changes, currency gains as well as income and costs.
