**% Return**

The return displayed is the cumulative daily time weighted percentage return for the account(s) for the stated period. The percentage return for each day is calculated as the total earnings of the day divided by the previous days account value adjusted for deposits, withdrawals and transfers. The percentage return allows for comparisons of returns between accounts and periods even when the account value differs.

**Total P/L**

Total P/L is calculated as the following: Account value at the end of the selected period–value of deposits, withdrawals and security transfers– account value at the start of the selected period. The Total P/L include P/L from instruments held in the period as well as non-instrument related transactions and valuation changes to cash balances on foreign currency accounts.Total P/L do not include gains/losses made outside the selected period.Total P/L excluding costs depict what the P/L of the account would have been if no costs had been incurred in the selected period.For positions opened prior to the selected period only price gains/losses incurred in the period will be included in the Total P/L.
